MEMORANDUM

To: Economic and Community Development Working Committee

Date: 5/20/08

From: Andrew Williams-Clark

Re: Go To 2040 - Regional Indicators

Please find a "crosswalk" document attached to this memo that demonstrates how each of the indicators proposed by the committee appears on the draft list of regional indicators and fits into the GoTo 2040 vision themes. The right column, entitled "clarification", highlights those indicators that will require some clarification before submission to consultants for investigation. We would like to facilitate a discussion to make those clarifications at the May committee meeting.

ACTION REQUESTED: CLARIFY INDICATORS WITH A QUESTION MARK.
